

Advanced Computing & Consulting has provided quality internet web sites since 1999. After hundreds of deployments we know how to get your web site off the ground, on the web, within budget and on time.

We also provide domain name parking, domain pointers, web site hosting, web site design and layout.

AdComp works closely with other design companies such as Computek Data Consulting, and a network of world class freelance graphics artists, developers, and webmasters to bring your web site up to the demanding standards of today's savvy internet user.

Total Web Design Solutions

AdComp, and our design team, are available to help you get your site up and running. From basic HTML to more advanced ASP, PHP, or XHTML scripting, we can make it happen. We can even set up an SQL

Database for you.

We can also employ Flash and 3D Graphic designs for your site as well as streaming video and audio feeds.

For help with your site, or for help on specific issues, contact us via email at admin@adcomp.biz or telephone at (806) 793-0045.

Total Web Hosting Solutions

If you are just starting out on the Internet or if you are the webmaster of a large corporation, we have the right solution for you. We combine web hosting, high-speed dedicated connection and upsize web projects all under one roof. Through our automated account creation you can be on-line in minutes. We will quickly assign you space on one of our servers so you can begin uploading your web site within minutes. Should you prefer that we set up your account for you, simply contact us at admin@adcomp.biz with an explanation of your needs, and we will get it online and running for you.

We are determined to offer our clients the best web hosting experience possible. To ensure 100% satisfaction we offer a 30 day money back guarantee.

Custom Computer Services

AdComp can also help you with a variety of computer related needs. From working with you to decide your computing needs for your home office and specialized areas, to designing and implementing a network to best fit your home or office needs.

If you need help with your your computers, contact Advanced Computing at admin@adcomp.biz or feel free to call us at (806) 793-0045.

We'll determine your needs and tell you what we can do!
